

Performance Review Institute (PRI) Registrar is a globally recognized not-for-profit organization, affiliated with [SAE International](#), focused on providing performance driven quality, environmental, health & safety certification services to clients around the world.

Since 1995, our goal has been to help our customers **drive operational improvements** that grow their bottom line. We do this by matching our highly experienced auditors with backgrounds in the same industry as our clients. Our auditors and staff provide a **professional, friendly, and value focused** audit every time.

Services:

- Quality (ISO 9001)
- Aerospace (AS9100, AS9120, AS9110)
- Environmental (ISO 14001)
- Health & Safety (ISO 45001 – Conformance only)
- Cyber Security (ISO 27001 – Conformance only) *ANAB Accreditation pending*

PRI Registrar clients benefit from our world-class service delivery model proven to ensure customer satisfaction. We have a dedicated **Business Development Specialist** that is assigned to each client to package a specific certification plan that meets their specific needs. Once a contract is signed, a **dedicated Account Specialist** is assigned to each client to be the primary contact for all audits, certification changes, and act as the liaison between auditors and clients. We select **auditors** who have fully authenticated credentials and are the best fit for our clients in terms of experience, industry background, and geographical location. Our **Scheduling** department schedules audits at least 6 months out to efficiently utilize our auditors to best support the client and necessary planning. Finally, we have 24-hour response requirement to all **Technical Support** inquiries that might arise from clients at any time during the certification cycle.

To fully support our service delivery, PRI Registrar has a customized online software program named **Registrar Management System (RMS)**. RMS is used to manage the whole certification process from the beginning to the end in a proactive and efficient manner. RMS indicates exactly where in the process the audit status is at any stage and who is responsible for the next step. All audit documents and certificates are contained within RMS.

PRI Registrar is known for our **affordable and competitive pricing**. Our travel expenses are not included and are invoiced at cost. The industry average for travel cost in the USA due to geographical distances is about 25% of the audit cost. Because we have strategically aligned our audit resources with the industries we serve and in metropolitan hubs, we average about 16% overall and often much less in most areas, providing significant savings to our clients on overall costs.

Our customer satisfaction rating is 97.3%. After every audit we survey our clients on all aspects of our service during the audit process. They like our service!

Notable Clients: ABB, AMsafe, ATI, Barnes Aerospace, Bossard Aerospace, Carpenter, Lufthansa, Moog Inc., PCC, PPG Industries, Praxair, Remington Ammunition, Rheem Inc., SAFRAN Group, Tinker AFB, Woodward, and Wyman-Gordon.

Additional Support:

- PRI Registrar clients are provided with **periodic communications** to share updates on the latest industry news, standard changes, and providing insight on how to attain or maintain certification.
- A **free media kit** is provided to all clients to promote their certification achievement.
